LEVIAN

*Brands that combine care for nature, experience, and innovation offer
exclusive products for eyebrow and eyelash worldwide*

ABOUT US

Levchuk Professional is a company with a long history of success, we are 17 years old and we continue to set ambitious goals and receive challenges.

MISSION

To provide professionals with innovative products and educational resources to achieve maximum results in their work.

OUR BRANDS

PROFESSIONAL
BrowXenna

A brand for professionals, which covers all tools and materials for eyebrow lamination, eyebrow tinting (including the legendary Brow Henna), and a series of eyebrow care products. The products have laboratory test documents and Halal certificates.

LENA LEVI

The series contains multifunctional products for eyebrow and eyelash care, decorative cosmetics and unique powder dye and mucin-based care cosmetics with our own production. The Lena Levi brand was awarded as a Revolutionary Product in the Field of Eyebrow Design and won in the nomination as the best beauty product in Japan.

LEVIAN
eyebrows & eyelashes
●●●

Arabic mono-product for eyebrow tinting. We are the official representative of Levian in Russia. The palette of three basic shades allows you to create expressive and voluminous eyebrows for clients with any type of appearance, as well as work even with difficult cases: gray, over-plucked eyebrows, eyebrows with tattoo and problem skin.

BrowXenna

The world's #1 eyebrow henna¹

The first product on the market created specifically for eyebrows based on henna.

Colors not only hairs, but also skin

Long-lasting result: up to 2 weeks on skin, up to 6 on hairs

Stimulates the growth of new hairs

A rich palette of colors – 15 shades that can be mixed with each other

A product chosen by more than 100,000 customers in 43 countries

¹Beauty Award Winner

BROWXENNA® BROW HENNA

BLONDE COLORS

Individual henna vials are supplied in a kit, each kit includes: 30ml Hyaluronic base, individual henna vial 10g and a measuring spoon 1 pcs.

203 LIGHT CHESTNUT

Is a shade suitable for blondes with honey and golden tints of hair, as well as for brown-haired women a light red tint hair.

Volume: 10 ml

201 PEARL BLONDE

A gentle, cold, ash-pearlescent shade that leaves a shadow on the skin. Suitable for girls with ash-blond hair. Does not darken the hairs and can be used in its pure form.

Volume: 10 ml

204 GOLDEN BLONDE

Is a soft gentle shade that suits girls with warm light hair color, as well as natural blondes. In its pure form it easily falls on the skin, emphasizing the wheat color of the hairs.

Volume: 10 ml

202 LIGHT BLONDE

Is a shade suitable for light blondes and girls with olive skin tone. In its pure form the shade can give a light haze or look transparent on the skin.

Volume: 10 ml

205 DARK BLONDE

Is one of the most popular shades in the palette. It is suitable for ashy blondes, dark blonde girls, as well as for owners of Slavic and European types of appearance.

Volume: 10 ml

BROWXENNA® BROW HENNA

BRUNETTE COLORS

Individual henna vials are supplied in a kit, each kit includes: 30ml Hyaluronic base, individual henna vial 10g and a measuring spoon 1 pcs.

101 NEUTRAL BROWN

Is suitable for eyebrow tinting of light brown-haired girls. A warm brown shade is well revealed on light hairs, so it is suitable for wheat blondes and redheads.

Volume: 10 ml

103 RICH TAUPE

Is suitable for brunettes and dark brown-haired women, can be used to darken any other shade.

Volume: 10 ml

102 COLD COFFEE

Is suitable for brown-haired women with a cold hair tone. It looks perfect on girls with dark hair and brown eyes. For blondes is used with caution.

Volume: 10 ml

104 DARK CHOCOLATE

Is suitable for girls with brown hair and brown eyes. Its pure form is emphasizing the cool brown tone of the hairs.

Volume: 10 ml

BROWXENNA® BROW HENNA

BRUNETTE COLORS

Individual henna vials are supplied in a kit, each kit includes: 30ml Hyaluronic base, individual henna vial 10g and a measuring spoon 1 pcs.

105 FROSTY CHESTNUT

Is suitable for girls with dark hair with a chestnut-copper shine. This is a warm shade. In order to adjust the color saturation, change the consistency and quantity of layers of the composition and the number of applied layers.

Volume: 10 ml

107 DARK EARTH

Saturated dark brown shade. It is one of the darkest colors in the palette. For bright girls who prefer maximum color.

Volume: 10 ml

106 DUST BROWN

Deep and soft taupe shade. The color, as if slightly dusty, creates a velvet tone. is suitable for any light or dark blond hair. When applied in a liquid consistency, it gives a natural, barely noticeable natural shadow, and when applied in a thick consistency, it gives a noble light brown color.

Volume: 10 ml

108 WOOD WINE

Pleasant reddish-brown color with burgundy semi-tone. It emphasizes mild and light eyebrows. is perfect for girls with red and warm shades of hair.

Volume: 10 ml

BROWXENNA® BROW HENNA

CORRECTORS

110 GRAPHITE CONCENTRATE

Is used to darken henna shades or to achieve a cool shade.

Volume: 10 ml

BROWXENNA® COLOR CHART BOOK

BrowXenna

Cleansing correction and care

The BrowXenna® series of care products includes eyebrow care products, as well as products necessary for the BrowXenna® henna eyebrow tinting procedure.

BROWXENNA® HYALURONIC BASE FOR HENNA MIXING

BrowXenna® Hyaluronic Base for Henna Mixing

An innovative product provides professional quality in eyebrow coloring. Its unique formula enhances the durability of color, and the gel texture improves the transfer of dye to the skin and promotes it's even distribution, making it ideal for any skin type. Enriched with nourishing ingredients, the product prevents skin from drying out, restores damaged hairs, provides deep hydration and conditioning, giving hairs elasticity and flexibility. The hyaluronic base is ideal for mixing with BrowXenna® henna, powder dye or any semi-permanent dye.

Volume: 50 ml

Ingredients:

Aqua, Betaine, Glycerin, Hyaluronic Acid, Helix Aspersa Müller Extract, Hydrolyzed Collagen, Silk Protein, Euxyl, CI 77820, Aroma.

BROWXENNA® PLEX BOND RECOVERY

BrowXenna® Plex Bond Recovery

BrowXenna® Plex Bond Recovery is an innovative formula for restoring and protecting hairs during and after any chemical procedures.

A unique complex of chemical compounds that restores damaged hairs and protects during lamination, lightening or coloring.

Volume: 10 ml

Ingredients:

Aqua, Coconut Oil, Cetearyl Alcohol, Cetyl Alcohol, Hydroxyethylcellulose, Ceteartrimonium Chloride, Sodium PCA, Decamethylcyclopentasiloxane, Polydimethylsiloxane, Polydimethylsiloxane Alcohol, Ammonia Terminated Polydimethylsiloxane, Trideceth-12, Cetylchloride Methylparaben, Hydroxypropyl Propyl Ester, Citric Acid, Hydrolyzed Collagen, Lauroyl Hydrolyzed Sodium Silk, Hydrolized Collagen, Glycine Max Polypeptide, Panthenol, Methyl-chloroisothiazolinone, Magnesium Nitrate, Magnesium Chloride, CI19140.

BROWXENNA® MINERAL SOLUTION FOR HENNA MIXING

BrowXenna® Mineral Solution for Henna Mixing

BrowXenna® Mineral solution for henna mixing is developed specially for mixing it with BrowXenna® Brow Henna. The unique formula of the Mineral Solution promotes high-quality and safe interaction with BrowXenna® Brow Henna and prolongs the durability of the coloring result.

Volume: 50 ml

Ingredients:

Aqua, Argania Spinosa Kernel Oil, Citric Acid, Cetearyl Alcohol, Amodimethicone, Dimethyl, Methyl (Aminoethylaminoisobutyl) Siloxane, Trimethylsiloxy-Terminated, 5-Chloro-2-Methyl-4-Isothiazolin-3-One, Magnesium Chloride, Magnesium Nitrate, 2-Methyl-4-Isothiazolin-3-One.

BROWXENNA® HENNA AND DYE REMOVER

BrowXenna® Henna and Dye Remover

BrowXenna® Henna and dye remover Helps to quickly and effectively eliminate mistakes during coloring. Lightens the skin by 2–3 undertones, but does not affect the color of hairs. The product has a neutral pH, does not contain ammonia, does not dry the skin, does not cause irritation or itching. It is suitable for all skin types, neither dries skin nor causes irritation.

Volume: 15 ml

Ingredients:

Ethoxydiglycol, Euterpe Oleracea Fruit Extract, Horse Chestnut Extract, Ilex paraguariensis Leaf Extract.

BROWXENNA® SHAMPOO-FOAM FOR DEEP CLEANSING OF EYEBROWS

BrowXenna® Shampoo-foam for Deep Cleansing of Eyebrows

BrowXenna® Shampoo-foam gently and deeply cleanses eyebrows, lashes and degreases the skin surface before the coloring procedure. The Shampoo-foam has the effect of light peeling: it gently removes dead skin particles, contributing to a better fixation of color.

Volume: 100 ml

Ingredients:

Aqua, Glycerin, Lauryl Glucoside, Disodium Cocoyl Glutamate, Sodium Cocoamphoacetate, Hydrolyzed Keratin, Aloe Barbadensis Leaf Juice, Panthenol, Disodium EDTA, Hyaluronic Acid, 5-Chloro-2-Methyl-4-Isothiazolin-3-One 2-Methyl-4-Isothiazolin-3-One.

BROWXENNA® TWO-PHASE TONIC FOR HENNA WASHING OFF

BrowXenna® Two-phase Tonic for Henna Washing off

BrowXenna® Tonic delicately removes dried layers of henna from the skin, effectively neutralizes the effect of cleansers and restores the natural pH balance of the skin. Fixes the coloring result, fixes the color in the hairs, prolongs the durability of henna coloring for eyebrows BrowXenna®.

Volume: 100 ml

Ingredients:

Aqua, Sodium Chloride, Potassium Chloride, Melaleuca Alternifolia Leaf Water, Hamamelis Virginiana Extract, Aroma, Magnesium Chloride, Magnesium Nitrate, 5-Chloro-2-Methyl-4-Isothiazolin-3-One, 2-Methyl-4-Isothiazolin-3-One.

BROWXENNA® GREEN MASK FOR EYEBROWS

BrowXenna® Green Mask for Eyebrows

The first product from the premium BrowXenna® Spa collection for professional use. It consists of 90% natural plant components. Easy to use, suitable for regular use. It deeply nourishes and qualitatively moisturizes the skin and hairs, and its effect is noticeable instantly.

BROWXENNA® THREADING THREAD

Browxenna® Threading Thread

Professional BrowXenna® antibacterial Thread for threading allows you to quickly, painlessly and effectively remove unwanted hairs. The special twisting system helps to work with hard and dense hairs, and the optimal thickness of the thread promotes an ideally smooth glide on the skin. The thread does not violate the integrity of the skin and allows you to pick up even very short, ingrown and damaged hairs during improper removal.

Length of thread: 300 m

Ingredients:

100 % Cotton.

BrowXenna

Eyebrow and eyelash lamination

Modern beauty standards are focused on naturalness, so one of the most popular procedures today is eyebrow and eyelash lamination.

Innovative system for express eyebrow and eyelash lamination BrowXenna® MonoStep is:

1 One step of lamination instead of the usual 3

Twice reducing the procedure time

The effect of perfectly styled eyebrows and elastic curl on eyelashes for up to 6 weeks

A unique formula that restores and strengthens the hair structure

A universal dual-purpose product – suitable for lamination of eyebrows and eyelashes, which significantly reduces the costs of the master

Lamination

31

Browxenna® Monostep Lamination

Composition for lamination of eyelashes and eyebrows MonoStep Lamination BrowXenna®.

Innovative system for express lamination of eyebrows and eyelashes, which significantly reduces the procedure time and creates the effect of styled eyebrows and eyelashes for up to 8 weeks. The lamination procedure now takes only 20–25 minutes! Without compromising the quality of the hair and the result.

Volume: 10 ml

Ingredients:

Aqua, Ammonium Hydroxide, Thioglycolic Acid, Cysteine, Propylene glycol, Ceteareth-20, Oleyl Alcohol, Sodium lauryl sulfate, Perfume, Disodium EDTA, Organic macadamia oil, Wheat hydrolyzed protein, Panthenol (Provitamin B5), Allantoin, Hydrolyzed Keratin, Argan Oil, Aloe Vera Extract, Sodium Hyaluronate.

BROWXENNA® MONOSTEP LAMINATION

BrowXenna® LamiPlex

Innovative system for express lamination of eyebrows and eyelashes, which significantly reduces procedure time and creates styled eyebrows and eyelashes effect for up to 8 weeks. The lamination now takes only 20–25 minutes.

Ingredients Step №1: Aqua, Ethanolamine Thioglycolate, Cetearyl Alcohol, Steartrimonium Chloride, Parfum, Monoethanolamine.

Ingredients Step №2: Aqua, Cetearyl Alcohol, Sodium Bromate, Steartrimonium Chloride, Parfum.

Ingredients Step №3: Aqua, Coconut Oil, Cetearyl Alcohol, Cetyl Alcohol, Hydroxyethylcellulose, Ceteartrimonium Chloride, Sodium PCA, Decamethylcyclopentasiloxane, Polydimethylsiloxane, Polydimethylsiloxane Alcohol, Ammonia Terminated Polydimethylsiloxane, Trideceth-12, Cetylchloride Methylparaben, Hydroxypropyl Propyl Ester, Citric Acid, Hydrolyzed Collagen, Lauroyl Hydrolyzed Sodium Silk, Hydrolized Collagen, Glycine Max Polypeptide, Panthenol, Methylchloroisothiazolinone, Magnesium Nitrate, Magnesium Chloride, CI19140.

**Step No 1 Lift.
Change in hair structure/
Formation of eyelash curl**

The first stage of the LamiPlex system involves a change in hair structure and the formation of eyelash curls. It remodulates disulfide bonds, making the hairs more manageable.

Volume: 10 ml

**Step No 2 Fix.
Fixing the direction of
hairs/fixing the curl**

The second stage of the LamiPlex system fixes the direction of hairs and the curl. It closes the hair cuticle, neutralizes the effect of the first composition, and reliably secures the desired shape of eyebrows and eyelashes.

Volume: 10 ml

**Step No 3
P-Plex Recovery**

P-Plex Recovery is a unique formula designed to restore and protect hairs during and after chemical procedures. It regulates the interaction level of the first composition with each hair, ensuring optimal care and recovery.

Volume: 10 ml

NEW

BROWXENNA® LAMIPLEX

BrowXenna® Fix-X Lami Powder Glue

Fix-X Lami Powder Glue BrowXenna — an innovative alternative to the regular lash lift adhesives. It has strong stickiness which makes lamination faster and easier.

Volume: 3 ml

Ingredients:

Hydroxyethylcellulose,
Polyquaternium-10, Xanthan
Gum, Allantoin, Chamomilla
Recutita (Matricaria) Flower
Extract.

BrowXenna

OXYGEN J2 Smart Coloring System

Oxygen J2 is a unique coloring technology. When creating the Oxygen J2 system, BrowXenna® technologists embodied modern ideas about gentle coloring of eyebrows and eyelashes, therefore, for Oxygen J2, they developed a special care complex that moisturizes, nourishes and protects hairs during coloring.

Oxygen J2 line composition:

Oxygen J2 eyebrow and eyelash dye

4 shades of dye with a silky texture that can be mixed together.

Oxygen J2 cream diluter

Non-pigmented cream diluter for controlling the intensity of the dye color.

Cream activator 2.7% Oxygen J2

For gentle penetration of the dye pigment into the hair structure.

Fluid tone stabilizer Oxygen J2

The tone stabilizer is used to stop the process of tone development on the hairs.

BrowXenna® Kit «OXYGEN J2 Smart Coloring System»

A complete set, it contains all the products of the Oxygen J2 line. An ideal choice for those who want to try out the entire system of smart eyebrow and eyelash coloring.

- The kit includes:**
- 4 dyes and Cream-diluter (15 ml each)
 - Cream-activator 2,7% (30 ml)
 - Fixtone Fluid-Tone Stabilizer (50 ml)

EYEBROW AND EYELASH DYE OXYGEN J2

#2.07 Oxygen J2 Black Eyebrow and Eyelash Dye

Black shade. Ideal for both burning brunettes and girls with dark hair. To make the tone lighter, it must be mixed with a diluter. On the hairs, the Black shade gives a pure and intense color – after dyeing, eyebrows and eyelashes look brighter and more expressive.

Volume: 15 ml

Ingredients of eyebrow and eyelash dye #2.07:

Aqua, Ethanolamine, Cetearyl Alcohol, Propylene Glycol, Aminomethyl Propanol, p-Phenylenediamine, Hexylene Glycol, Glycerin, Betaine, Urea, Ammonium Sulphate, Laureth-2, Glyceryl Stearate SE, Hydrolyzed Silk Protein, Hydrolyzed Oats, Hydrolyzed Keratin, Polysorbate-20, Cetearth-25, Potassium Cetyl Phosphate, 2,4-Diaminophenoxyethanol HCl, Gluconolactone, Disodium EDTA, PEG-100 Stearate, 4-Chlororesorcinol, p-Methylaminophenol, N-Phenyl-p-Phenylenediamine Sulfate, Sodium Polyacrylate, Sodium Metabisulfite, Panthenol, Aroma, PEG-14M, Sodium Erythorbate.

EYEBROW AND EYELASH DYE OXYGEN J2

#5.67 Eyebrow and eyelash dye Oxygen J2 Brown

Beautiful brown shade. Universal cold tone, which harmoniously emphasizes the appearance of girls with chestnut or light brown hair. Mixing the dye with a diluter allows you to adjust the color intensity and get the desired tone for any hair color.

Volume: 15 ml

Ingredients of eyebrow and eyelash dye #5.67:

Aqua, Ethanolamine, Cetearyl Alcohol, Propylene Glycol, Aminomethyl Propanol, Hexylene Glycol, Glycerin, Betaine, Urea, Ammonium Sulphate, Laureth-2, Glyceryl Stearate SE, p-Phenylenediamine, Hydrolyzed Silk Protein, Hydrolyzed Oats, Hydrolyzed Keratin, Polysorbate-20, Cetearth-25, Potassium Cetyl Phosphate, m-Aminophenol, 4-Amino-m-Cresol, Gluconolactone, Disodium EDTA, PEG-100 Stearate, p-Methylaminophenol, Sodium Polyacrylate, Sodium Metabisulfite, Panthenol, N-Phenyl-p-Phenylenediamine Sulfate, Aroma, PEG-14M, Sodium Erythorbate, 2,6-Diaminopyridine, 4-Chlororesorcinol.

EYEBROW AND EYELASH DYE OXYGEN J2

#6.42 Eyebrow and eyelash dye
Oxygen J2 Warm walnut

Beautiful nut-brown color. Adds expressiveness to red and reddish eyebrows. Perfectly emphasizes the image of girls with light brown hair or light curls of warm shades.

Volume: 15 ml

Ingredients of eyebrow and eyelash dye #6.42:

Aqua, Ethanolamine, Cetearyl Alcohol, Propylene Glycol, Aminomethyl Propanol, p-Phenylenediamine, Hexylene Glycol, Glycerin, Betaine, Urea, Ammonium Sulphate, Laureth-2, Glyceryl Stearate SE, Hydrolyzed Silk Protein, Hydrolyzed Oats, Hydrolyzed Keratin, Polysorbate-20, Ceteareth-25, Potassium Cetyl Phosphate, 4-Amino-m-Cresol, Gluconolactone, Disodium EDTA, PEG-100 Stearate, p-Methylaminophenol, Sodium Polyacrylate, Sodium Metabisulfite, Panthenol, Aroma, PEG-14M, Sodium Erythorbate, 2,6-Diaminopyridine, 2-Amino-3-Hydroxypyridine.

EYEBROW AND EYELASH DYE OXYGEN J2

#3.11 Eyebrow and eyelash dye
Oxygen J2 Graphite

Graphite shade for ash blondes and girls with light brown hair. Beautifully emphasizes the expressiveness of eyelashes and eyebrows, creating a very natural look. Delicate graphite color can even be used to tint men's eyebrows – it effectively colors, hides gray hair and is completely invisible. If you use shade 3.11 in a mix with a diluter, you can achieve a light shade.

Volume: 15 ml

Ingredients of eyebrow and eyelash dye #3.11:

Aqua, Ethanolamine, Cetearyl Alcohol, Propylene Glycol, Aminomethyl Propanol, Hexylene Glycol, Glycerin, Betaine, Urea, Ammonium Sulphate, Laureth-2, Glyceryl Stearate SE, Hydrolyzed Silk Protein, Hydrolyzed Oats, Hydrolyzed Keratin, Polysorbate-20, Ceteareth-25, Potassium Cetyl Phosphate, p-Phenylenediamine, Gluconolactone, Disodium EDTA, PEG-100 Stearate, 2,4-Diaminophenoxyethanol HCl, p-Methylaminophenol, m-Aminophenol, 4-Amino-m-Cresol, N-Phenyl-p-Phenylenediamine Sulfate, Sodium Polyacrylate, Sodium Metabisulfite, Panthenol, Aroma, 4-Chlororesorcinol, 2,6-Diaminopyridine, PEG-14M, Sodium Erythorbate.

EYEBROW AND EYELASH DYE OXYGEN J2

Oxygen J2 Cream Diluter

Diluter is an innovative product for controlling color intensity during coloring. Allows you to achieve dozens of shades of one color and adjust their brightness. Used in a mix with the colors of the main palette.

Volume: 15 ml

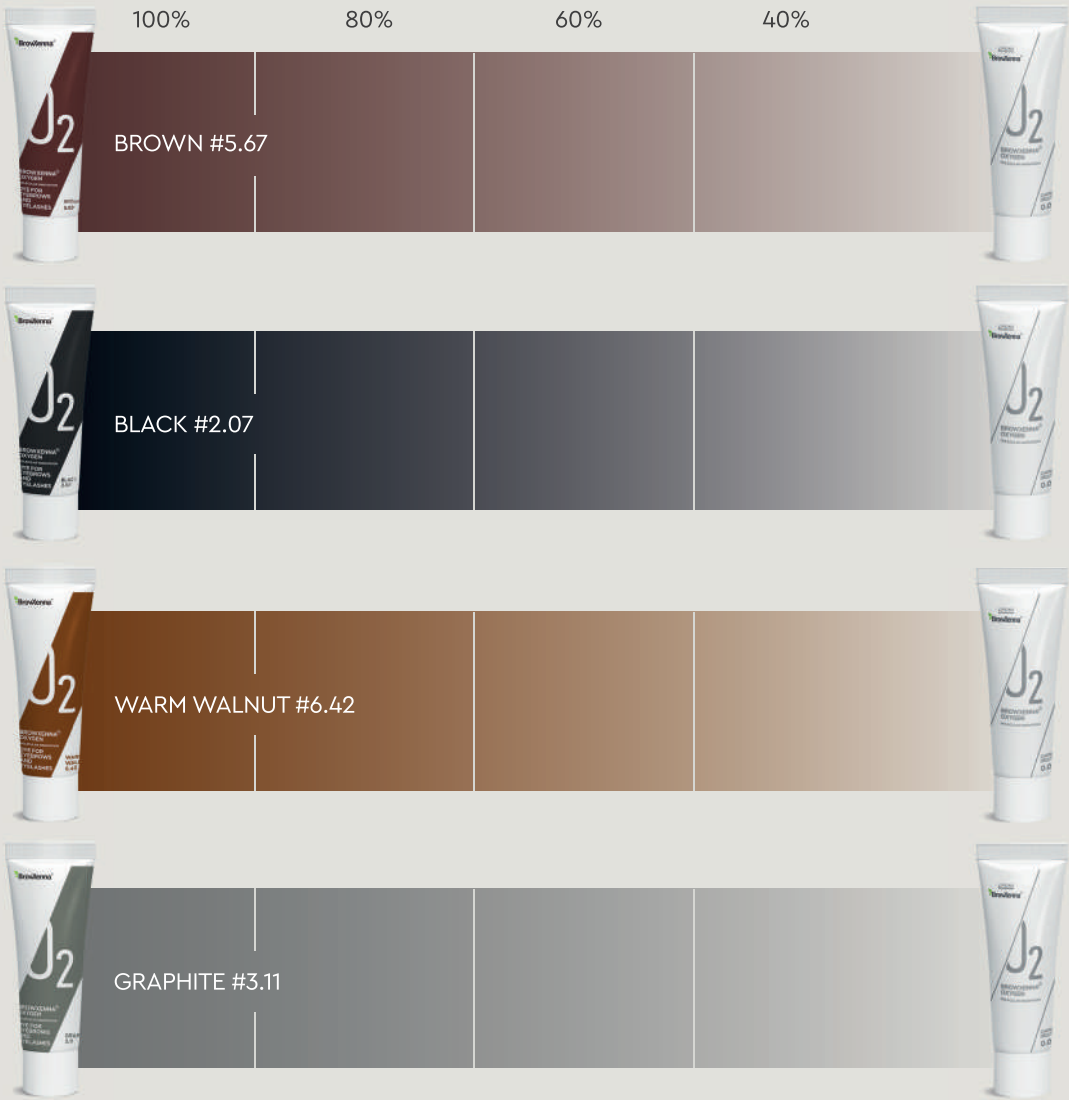

Diluter cream can work as a soft and gentle lightener: it allows you to lighten hairs by 1–2 tones. This property works within the Oxygen J2 Smart Coloring System. The interaction of the diluter with dyes of other brands can be unpredictable.

Diluter cream can work as a soft and gentle lightener:

Aqua, Ethanolamine, Cetearyl Alcohol, Propylene Glycol, Aminomethyl Propanol, Hexylene Glycol, Glycerin, Betaine, Urea, Ammonium Sulphate, Laureth-2, Glyceryl Stearate SE, Hydrolyzed Silk, Hydrolyzed Oats, Hydrolyzed Keratin, Polysorbate 20, Ceteareth 25, Potassium Cetyl Phosphate, PEG-100 Stearate, Gluconolactone, EDTA, Sodium Polyacrylate, Sodium Metabisulfite, Panthenol, Parfum, PEG-14M, Sodium Erythorbate.

The Cream-Diluter can work as a color remover: it gives an opportunity to lighten colored hairs and skin by 1–3 tones. This feature works within the Oxygen O2 Smart Coloring System. The interaction of the Diluter with other brands of dyes can be unpredictable.

CREAM-ACTIVATOR 1.8% OXYGEN J2

Cream-activator 1.8% Oxygen J2

Cream-activator Oxygen J2 1.8% easily combines with Oxygen J2 dye, providing a uniform consistency of the coloring mixture and easy application.

Gentle, low-percentage oxide does not damage the cuticular layer of the hair, provides gentle, long-lasting coloring.

- Ideal for:
- eyelash coloring
 - coloring after eyebrow and eyelash lamination procedure
 - sensitive skin and sensitive eyes

Volume: 30 ml

Ingredients:

Aqua, Hydrogen Peroxide, Cetearyl Alcohol, Behentrimonium Chloride, Ceteareth-7, Phosphoric Acid, Disodium EDTA, Sodium Stannate, Hydrolyzed Silk Protein, Wheat Protein, Rice Protein, Hydrolyzed Soy Protein.

CREAM-ACTIVATOR 2.7% OXYGEN J2

Cream-activator 2.7% Oxygen J2

An important part of the Oxygen J2 eyebrow and eyelash coloring system. When mixed with dye, the cream activator provides a gentle and delicate effect of the dye on the hairs and skin. Guarantees long-lasting and safe coloring.

Volume: 30 ml
Volume: 100 ml

Ingredients:

Aqua, Cetearyl Alcohol, Hydrogen Peroxide, Laureth-2, Ceteareth 20, Glyceryl Stearate, PEG-100 Stearate, Polysorbate 20, Phosphoric Acid, EDTA, 8-Hydroxyquinoline, Tetrasodium Pyrophosphate, Sodium Stannate.

OXYGEN J2 FIXTONE FLUID-TONE STABILIZER

Oxygen J2 Fixtone Fluid-Tone Stabilizer

It is used after coloring, if it is necessary to stop the process of dye development on the skin and hairs and stabilize the result.

Volume: 50 ml

Ingredients:

Aqua, Hydrolyzed Silk Protein, Hydrolyzed Keratin, Hexylene Glycol, PEG-12 Dimethicone, Panthenol, Sophora Japonica Bud Extract, Phenoxyethanol, Gluconolactone, Aroma, Polyquaternium-10, Lactic Acid, Ethylhexylglycerin, Cetrimonium Chloride.

BROWXENNA® LUMÉ DIRECT ACTION PIGMENTS

BrowXenna

Brow Waxing System

Perfect SPA eyebrow correction is the task of the Brow Waxing System by BrowXenna® depilation system.

The best professional wax for luxury depilation

The products of the system complement and enhance each other's properties

The series is specially designed for depilation in the facial area, even on the most sensitive skin

SPA depilation with oil and talc

Savings up to 38% compared to classic hot wax

BrowXenna® Brow Waxing System

This is care and depilation in one set.

The series combines products that not only remove hairs, but also care for the skin, creating the effect of a pleasant SPA procedure: natural oils, cleansing lotion and hypoallergenic wax.

The line includes:

- Depilation wax (Brow Wax)
- Pre-waxing Lotion – Pre-waxing Oil
- Cosmetic talc for sensitive skin
- Post-waxing Oil
- Wax solvent (Wax Solvent)
- Wooden applicator for depilation

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Brow Wax Depilatory Wax

Premium quality wax for painless depilation of sensitive areas of the face. Due to titanium dioxide in the composition, the wax firmly adheres to the hairs and removes hard, thin and short hairs from 1 mm the first time, remaining soft, flexible and elastic when applied.

Maximum comfort for the master – melts at a temperature of 40 ° C and eliminates the possibility of burns. Hardens quickly and is removed from the skin in one movement. Does not cause irritation, redness and allergies.

Volume: 60 g

Ingredients:

Hydrogenated Polycyclopentadiene, Ethylene/va, Copolymer, Paraffin Wax, Cera Microcristallina (Microcrystalline Wax), C.I. 77891 Titanium Dioxide, C.I. 77019 Mica, C.I. 77491 Iron Oxide.

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Pre-waxing Lotion

The first step in the BrowXenna® SPA hair removal procedure. Prepares the skin and hairs for wax correction, actively copes with makeup, skin impurities, degreases and disinfects. Aloe vera in the composition prevents irritation, and cooling menthol reduces pain during hair removal. Panthenol and betaine nourish and protect the skin from damage during the procedure.

Volume: 100 ml

Ingredients:

Aqua, Propylene Glycol, Glycerin, Urea, Cocamidopropyl Betaine, Panthenol, Polysorbate-20, Aloe Barbadensis Leaf Extract, Allantoin, Citric Acid, Imidazolidinyl Urea, Disodium Edta, Parfum, Menthol.

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Pre-waxing Oil

Thanks to the BrowXenna® Pre-waxing Oil SPA depilatory oil, the hair removal procedure is as comfortable and painless as possible. The oil is applied to the skin before contact with wax to create double protection against damage, stickiness, pain and irritation. BrowXenna® Pre-waxing Oil eliminates any trauma and bruises, as well as damage to the upper layer of the skin. The formula based on orange and coconut oils nourishes and regenerates the skin, has antiseptic properties and soothes. Thanks to the oil, the client is immersed in a relaxing atmosphere of aromatherapy.

Volume: 100 ml

Ingredients:

Paraffinum liquidum (mineral oil), C12-15 Alkyl Benzoate, Isopropyl Palmitate, Caprylic/Capric Triglyceride, Cocos Nucifera (Coconut) Oil, Citrus Aurantium Dulcis (Sweet Orange) Peel Oil.

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Cosmetic talc for sensitive skin

Talc instantly dries wet skin, absorbs excess oil, allowing wax to capture even the shortest and thinnest vellus hairs! Protects sensitive skin from contact with wax and ensures strong adhesion of wax to hair.

Volume: 15 g

Ingredients:

Talc, Triclosan.

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Post-waxing Oil

Oil for a comfortable and pleasant completion of BrowXenna® SPA hair removal. Thanks to the lavender extract and coconut oil in the composition, the skin remains moisturized, velvety and well-groomed. Menthol suppresses the slightest burning sensation.

The composition of natural fragrant oils leaves a pleasant impression after the procedure. The oil removes wax residue from the skin.

Volume: 100 ml

Ingredients:

Paraffinum Liquidum (Mineral Oil), C12-15 Alkyl benzoate, Isopropyl Palmitate, Caprylic/Capric Triglyceride, Cocos Nucifera (Coconut) Oil, Lavandula Angustifolia Oil, Melaleuca Alternifolia (Tea tree oil), Menthol.

BROWXENNA® BROW WAXING SYSTEM

BrowXenna® Wax Solvent

Special solvent formula quickly and effectively removes residues of hardened cosmetic wax from clothes, linen, furniture, heaters, tools and equipment. Smells nice and helps in quick cleaning after the procedure.

Volume: 100 ml

Ingredients:

Isopropyl Myristate, Dicaprylyl Ether, D-limonene.

BrowXenna® Wooden applicator for depilation

Convenient disposable wooden applicators for applying wax to the depilation area. Suitable for work on any areas of the face. Length: 12 cm.

Set of 100 pcs

BROWXENNA® BROW WAXING SYSTEM

BROWXENNA® BROW WAXING SYSTEM

Brow Waxing System set, BrowXenna®

All for SPA-depilation of eyebrows and sensitive facial areas in one set! The box includes 5 BrowXennaB® products for a premium waxing treatment, handy wooden applicators for waxing and a stylish storage box. The master no longer has to buy separate products for the full treatment!

- In the set:**
- Brow wax (4×60g)
 - Pre-waxing lotion (1 × 100 ml)
 - Pre-waxing oil (1 × 100 ml)
 - Post-waxing oil (1 × 100 ml)
 - Wax solvent (1 × 100 ml)
 - Wooden applicators (50 pcs.)

BrowXenna

Perfect Bleach

Professional hair lightening products help to lighten hairs by four tones and get a natural shade without yellowness. Thanks to the moisturizing components in the composition, the products do not dry the skin, do not create a feeling of tightness and do not damage the hairs. All products in the line are suitable for Muslim correction and have a Halal certificate.

Lightening products

NEW

BROWXENNA® BLEACHING POWDER PINK

Hair lightening agent BrowXenna® Bleaching Powder Pink

Bleaching Powder Pink is the perfect assistant for delicate lightening. The unique formula prevents overdrying, dehydration and damage to hair.

The enhanced formula of Bleaching Powder Pink effectively eliminates unwanted yellow tint after lightening, and the fruity aroma makes the lightening process more comfortable.

Bleaching Powder Pink should be used only with Cream Activator 2.7% OXYGEN J2 from the BrowXenna® product line.

Volume: 15 g

Composition:

Sodium Silicate, Potassium Persulfate, Ammonia Persulfate, Mineral Oil, Sodium Persulfate, Magnesium Stearate, Hydroxyethyl Cellulose, Disodium Edta, Xanthan Gum, Silica, Sodium Stearate, CI177007.

BrowXenna

Tools and brushes for eyebrows

The BrowXenna® eyebrow brush is an indispensable tool in the arsenal of a brow artist. The range includes beveled and pointed brushes. Depending on your preferences, you can choose artificial or natural bristles. BrowXenna® tools: tweezers, scissors, cup, compass and ruler, which are necessary for every brow artist.

You can see the full range of brushes on our website:

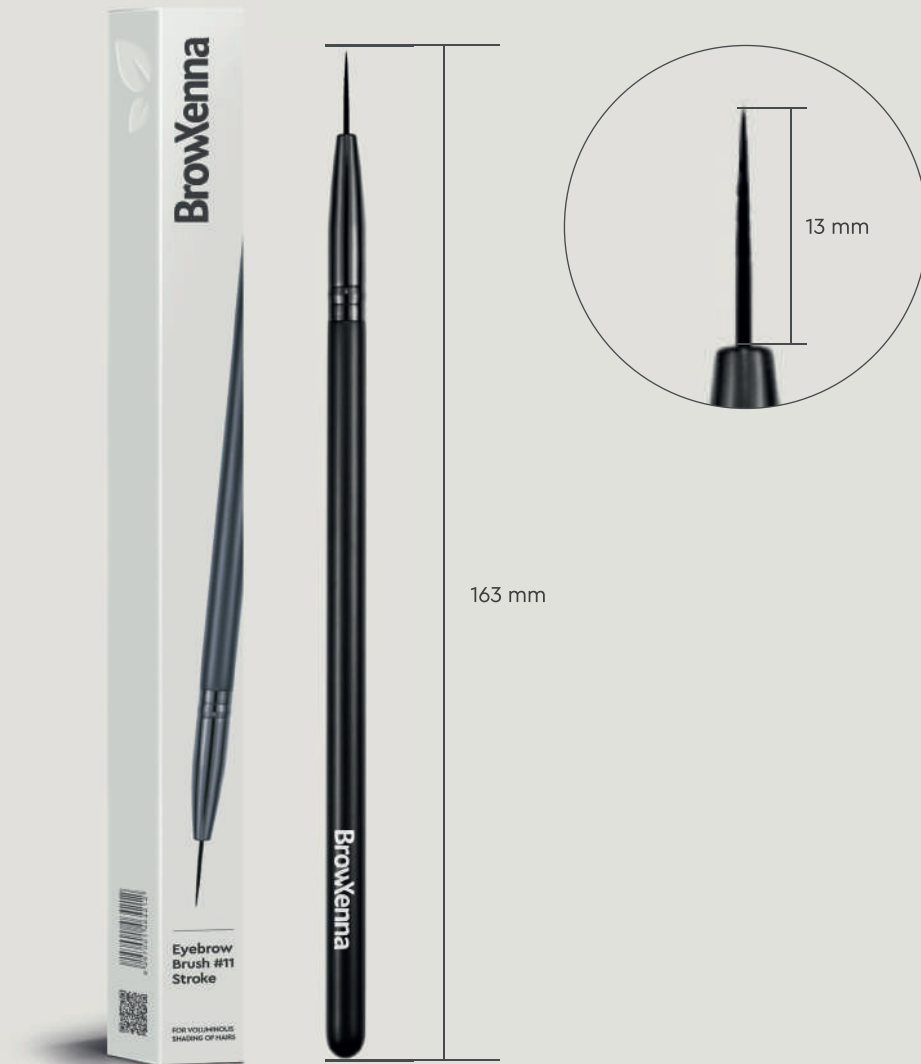

BrowXenna® Eyebrow brush «Sabre» BrowXenna® N°9 beveled with a rounded cut

A professional brush for eyebrow coloring, designed to achieve perfection in every stroke. The brush has synthetic bristles and an ultra-thin cut, which allows it to be used for various makeup application techniques, including graphic lines, watercolor effects and hair technique. This makes it an indispensable tool for professionals who value precision and versatility.

BrowXenna® Eyebrow brush «Stroke» N°10 beveled for voluminous shading of hairs

The original canvas and synthetic bristles of the brush, made of high-quality materials, guarantee perfect application of dye and ease of care. The hairs of the brush have optimal rigidity and elasticity, which allows you to achieve maximum precision in work, whether it is thin strokes or hair coloring technique.

BROWXENNA® EYEBROW BRUSH

BrowXenna® Eyebrow brush «Hair» N°11 ultra-thin for drawing hairs

«Hair» is a brush for coloring eyebrows with synthetic bristles, which will become an indispensable accessory in the arsenal of cosmetic tools. Thanks to the original canvas, imitating thin hairs, this brush is ideal for creating a natural and hair-like effect when coloring eyebrows.

BrowXenna® Balm for protecting and preserving the shape of brushes after washing, prevents frizz

Brush storage balm is an innovative product that will prevent frizz and ensure the durability of your tools! The balm creates an invisible barrier that prevents frizz and mechanical damage. Extends the life of your brushes, keeping them in perfect condition. Easy to apply and leaves no marks.

Volume: 25 g

Ingredients:

Dimethicone, Cyclomethicone, Acrylates Copolymer, PEG-12 Dimethicone, Phenoxyethanol, Butylated Hydroxytoluene (BHT) 0.1%.

BROWXENNA® TOOLS

BrowXenna® Professional Scissors

Eye-brow scissors easily grip and neatly cut the smallest hairs without bending.

BrowXenna® Eyebrow Tweezers

Hand-sharpened tweezers grip even the finest hairs, providing detailed elaboration of complex areas:

BrowXenna® Eyebrow Stencil Ruler

The ruler is made of soft plastic. Convenient for creating the shape of eyebrows on the client's face. The ruler has two scales that start from the center – this allows you to take measurements for two eyebrows at once, achieving unambiguous symmetry.

Cup for diluting henna and BrowXenna® dye

An elegant cup for dilution will help the master in the eyebrow and eyelash dyeing procedure and will become a wonderful decoration of the work desk. The cup is made of transparent tempered glass, easy to clean and can be used an unlimited number of times. The recess in the base allows you to use it not only as a support, but also as an additional surface for mixing shades.

BrowXenna

Decorative cosmetics

Ingredients:

Aqua, Glycerol, Cellulose Powder, Panthenol, Ethylhexylglycerin, Phenoxytol, Carbomer, Polyoxethylene Sorbitan Monolaurate, Aminomethyl Propanol, Glyoxyldiureid, Aroma, Bacillus Ferment, Methylethylene Glycol.

LENA LEVI® INTENSIVE CARE 7-IN-1

Lena Levi® Intensive Care 7-in-1

Lena Levi® 7-in-1 multifunctional care product for eyebrows and eyelashes restores damaged hairs and makes them resistant to external influences, prolongs the coloring result, increases the volume and density of eyebrows and eyelashes. Intensively moisturizes and nourishes hairs due to caring components. Makes eyebrows and eyelashes denser, filling empty areas with keratin and closing the scales of hairs. Helps to preserve the color in the hairs after coloring. Suitable for regular use and has a cumulative effect. For professional and home use.
